

[See Video Trailer](#)

Hello Friend,

I am embarking on a new film. It is one of the most fascinating stories I have stumbled across in my filmmaking career.

I am following a family with an autistic son, Lucas, who is slowly improving with the use of homeopathy. A compelling dramatic journey unfolding daily. But this film will go beyond autism- - it explains what homeopathy is, the history, the controversy, and how it is used to treat a variety of chronic --seemingly incurable-- diseases.

Ultimately, the film illuminates the connection between emotions and illness, mind and body.

I am deeply passionate about this film. In our present health care crisis, homeopathy provides an inexpensive alternative that people need to know about.

While my former films [Twitch and Shout](#), [The Jew in the Lotus](#), [Twisted](#), and [Touched](#) helped raise awareness and changed attitudes, this film will not only educate. but could potentially save lives.

A benefactor has just generously offered to match, dollar for dollar, any monies raised from now until the end of the year, for up to \$15,000! This would give us a total of \$30,000! Please help us meet that goal! I am asking for donations of any amount. Every little bit helps! For everyone who donates \$250 or more, you will be included in the credits. [To donate click here](#). All donations are tax deductible.

And for all of you who might be skeptical about homeopathy, I ask you to believe in me as a filmmaker, and believe in the importance of telling a true story, even if it challenges conventional medicine notions of what is and isn't possible.

Please visit my website for a description of [From Within, Without](#), and a short fundraising trailer. If you have already given to the film -- thank you so much -- please forward this letter to anyone else who might be interested.

Sincerely,

Laurel Chiten
